- Definition of gauffering: The edges of a book, usually gilded, which have been decorated further by means of heated finishing tools or rolls which indent small repeating patterns. Gauffering is most successful on a book printed on hard paper and gilt solid. It may be done directly on the gold, or by laying a different coloured gold over the first, and tooling over the top gold, leaving the pattern in the new gold impressed. The term comes from the French word for honeycomb: gaufre*
